With an ancient and important past, Asti is one of the provincial capitals of Piedmont. Founded by the Romans under the name Hasta Pompeia, many vestiges of this history still remain today. Located on the Via Francigena and the hub of the Duchy of Asti in the late Middle Ages, it was also an important center during the Risorgimento and under the Savoy dynasty. Its churches, towers, and fortified houses tell of a glorious past, when it was known as the "city of a hundred towers." Nestled between the hills of the Langhe and Monferrato, Asti is known worldwide for its wines. Many tourists come to Asti for the richness of the territory, its villages, vineyards, woods and good food and you can't help but take home a nice bottle of Moscato d'Asti as a souvenir.
